OMS
YOUR DENTAL UNITNESS

Carving

Ongoing Evolution. Carving new design has also an optional control panel touch. The core of this extremely stylish dental unit is the perfect balance between swivelling, suspended cuspidor with removable ceramic bowl and stainless-steel tap pipes and a robust floor-standing aluminium-cast MOON chair. This distinctive compact design has the highest functionality, with its 5-housing instrument doctor console equipped with S.P.R.I.D.O. technology and its assistant console with 2 suction tubes plus one free housing on pantograph arm (up-down balanced arm). Upon request, assistant console can be provided with 2 suction tubes plus two free housings with wide tray on top. Leading-edge water systems treatment or amalgama separator are also available.

+ S.P.R.I.D.O. technology with reduced height overall dimensions and long hose extension

+ Also available Swivelling 90° and suspended cuspidor assembled to floor-standing chair

+ Ceramic bowl swivelling towards sitting patient. It can be easily removed for hygienic cleansing

+ Ergonomic doctor console with intuitive control, also available in touch version with integrated display

+ Ergonomic assistant console with keyboard also available in touch version

-  Swivelling and suspended cuspidor assembled to floor-standing chair
-  All-Around doctor console with S.P.R.I.D.O. technology
-  Moon chair
-  Stylish and compact dental unit
